

Clean up

 the world
 Exciting news!!

Clean up the World - Gibraltar preparations are truly underway and we can confirm that community support is as strong as ever (below photo of 2nd planning session held last week)

- Also on Tuesday this week Janet Howitt and other ESG committee members gave **Rotary Gibraltar** a talk on the environment and the Clean up Campaign. Much interest was generated. Important issues such as local and regional pollution was discussed; the fact that we still do not do basic recycling of our paper, tin, glass and plastics was another. Rotary declared its support and participation in the forthcoming Clean up event. Next planning session for the Clean up teams is for the 1st September, all volunteers should attend between 7.30pm to 9.00pm at the ESG premises (see details below).

- **Other big news is the return in September of GCM Director and Expert Bucket Brigade Leader, Denny Larson, to Gibraltar and the Bay.**

Denny Larson will be making his fourth trip to the Bay all the way from the USA to assist the ESG and BBB in pressing forth their campaigns to reduce pollution – Details of his schedule will be published in the news next week

ESG new Premises

- **The official launch of our new premises** located on the top floor of the Plater Youth Club, The Gorbals, Castle Road (on the right before the Arch into Moorish Castle Estate) will take place on the

12th September at 7.00pm

Denny Larson will be present enabling ESG members and guests an opportunity to meet him. Although ESG members have an automatic invite, there is limited capacity and so we advise members to ring and register as soon as possible. **Please call 71020, 54028502 or 43156 to leave your details.** Information on this and other programmes coming up will also be sent by post/email to members soon.-

- **ESG is currently fundraising to help meet costs for equipping our premises, the Clean up and return of Denny Larson to Gibraltar and welcomes donations which can be sent direct to our account no: 47517131 held at NatWest, 57, Line Wall Rd**

Please help us make our campaigns work for a better environment!
