

## The ESG confirms that Bucket Brigade advisor, Denny Larson returns to the Rock!!

ESG would like to announce the return of **Mr Denny Larson, Global Community Director and initiator of Bucket Brigades worldwide**, to Gibraltar. This will be Mr Larson's third visit and will seek to build upon the progress achieved in the anti-pollution campaign, with the use of bucket sampling.

After a meeting in Brussels, details of which will be released beforehand, Mr Larson will be spending 5 to 6 days in the Bay engaged in a busy programme of events. These will include sampling runs as well as press conferences and public meetings on both sides of the border.
